

EMPATHY MEANS BUSINESS: THE ROI OF LEADERSHIP UNDERSTANDING

SPEAKING AT YOUR EVENT

It's difficult selecting a speaker. The difference between people who speak on leadership and me, is I'm a regular person who worked in regular jobs and every single day **I saw how some leaders turned people off.**

I deliver **a disarming and relatable speech** filled with stories and unexpected humor that compels audiences to consider **empathy** as a way of doing business. Audiences detect a quiet lioness in me as they discover things are not always as they appear. They leave sessions **imagining possibilities and inspired** to make a difference.
